

AMENDMENTS TO THE SPECIFICATION

Please replace paragraphs [0072]-[0074] of the Specification with the following replacement paragraphs:

“[0072] FIGS. 19A, 19B, and 19C ~~and 19D~~ show different views of another hinge part with features according to the invention;

“[0073] FIGS. 19D, 19E, 19F, and 19G show an even further hinge part and detailed views of the associated holding elements;

“[0074] FIG. 19H is a front view ~~of the T-shape of the holding element~~ similar to FIG. 19G showing holding elements of greater thickness;”

Please replace paragraph [0097] of the Specification with the following replacement paragraph:

“[0097] In the embodiment form according to FIGS. 11E and 11F, the tool is provided with a pinion 84 which can engage in corresponding teeth 86 of the two holding elements 636-1, 636-2 and makes it possible for the two holding elements to be drawn back into the housing when the tool and pinion 84 are turned in order to pull the housing out of the opening in the thin wall. The holding elements 636-1 and 636-2 shown in FIGS. 11E and 11F comprise surfaces 85-1 and 85-2 at their inner ends overlapping and touching one another in an area between the toothed strips 87-1 and 87-2 and the room provided for the spring 642, shown in broken lines in FIGS. 11E and 11F.”

Please replace paragraph [0105] of the Specification with the following replacement paragraph:

“[0105] The embodiment form according to FIGS. 19D, 19E, 19F, 19G and 19H provides two metal pieces 436 1136 which are located next to one another and which are held jointly by a spring 1142 in such a way that these three parts form a handling unit which is stable in itself, that is, they can be handled separately and, if required, can be inserted into a corresponding recess in the body part 1130 as can be seen in FIG. 19E.”

Please replace lines 11-12 on page 17 of the Specification with the following replacement lines:

“28, 1128 head part

“30, 1130 body part”

Please add the following lines after the last line (i.e., line 23) on page 19 of the Specification:

“85-1, 85-2 overlapping surfaces

“87-1, 87-2 toothed strips

“1136 metal piece

“1142 compression spring

“1190 rectangular opening”

The above amendments have only been made to further clarify items already shown in the drawings. Accordingly, Applicant respectfully asserts that no new matter has been added by the above amendments.
